Credit, Collections & Deductions

EIPP Customer Self-Service Portal

A/R Collaboration Portal

OCR Auto Cash Application

Four to Six Week Go-Live

Maximum Flexibility

Efficient Workflows

Real-Time Integration

Driving Success Through Integration

Cforia Software has the most comprehensive Credit, Collections and Deductions software for JD Edwards ERP in today's market. The implementation of our product provides a powerful tool for success in increasing your company's productivity and efficiency. Our complete A/R automation platform includes all of the following functions: Real-Time Database Integration, Credit, Collections and Deductions Workbench, EIPP Customer Self-Service Portal, A/R Collaboration Portal and OCR Auto Cash Application.

The foundation of the Cforia A/R Automation Platform is Real-Time Database Integration that drives the workflow behind in the entire platform.

With the Credit, Collections & Deductions Workbench your A/R Department has access to one application where credit, collections and deductions can be efficiently managed. Our EIPP Customer Self-Service Portal enables your customers to receive electronic billing, view shipping status, collaborate on deductions and pay online. Similarly, team members outside of your A/R Department have can sign-on to the A/R Collaboration Portal to view payments and disputes, manage their activities and collaborate on all aspects of A/R. OCR Auto Cash-Application, leverages OCR technology to automatically read and apply payments received in bank lockbox BAI2, MT-940, EDI-823, PDF and TIF formats, plus remittance information received in hard copy, spreadsheet and EDI-820 formats.

The Cforia A/R Automation Platform is unlike any other in its market space. The ease with which it integrates across multiple ERP systems and its near real-time database integration, differentiates it from all other competitors.

Faster Implementation at Lower Cost, better A/R results

- JD Edwards Real-Time Integration
- Works with either AS/400 iSeries or Oracle Database Architectures
- Single instance supports multiple currencies, languages and business units
- Writebacks for notes, held order management, and credit limit updates
- Rapid Go-Live with short four to six week project time
- Enables Finance and A/R Departments to create and modify Reports, Electronic Dunning Correspondence and A/R business logic themselves
- Integrates with disparate ERP and Billing Platforms
- Available in Private Cloud and Insourced application delivery formats

Business Benefits:

- Accelerate Order-to-Cash to decrease DSO and increase Cash Flow
- Shorter project time and lower cost than custom alternatives
- Maximum system flexibility supports customizing reports, dunning and business logic by A/R staff without IT programmer support

About Cforia Software:

Cforia Software was founded in 2001 by technology veterans with extensive experience in ERP applications like SAP, Oracle, PeopleSoft and JD Edwards. Today, Cforia is a global company that provides industry leading A/R Automation that is used by large corporations to manage over \$170 billion in open A/R. Some of our largest customers include Textron, Teledyne, Citizen Watch and NAPA Auto Parts. Cforia's rapid growth is driven by superior technology that includes real-time data integration across disparate ERP systems, order management, separate clean and dirty receivables tracking, plus handles multi-currency, multi-languages and multi-business operating units.

Our comprehensive software suite maximizes AR performance through its integrated system that includes OCR Auto Cash Application, Credit Collections & Deductions Workbench, Customer Self-Service & Payment Portal, and an A/R Collaboration Portal. Cforia in-house project resources typically implement the entire platform in one to three months.

Cforia's A/R Automation empowers Finance Departments to manage their own electronic dunning correspondence, reports and credit and collections business logic without having to rely upon overburdened IT staff or outside consultants.

About JD Edwards:

Oracle's JD Edwards EnterpriseOne is an integrated applications suite of comprehensive enterprise resource planning software that combines business value, standards-based technology and deep industry experience into a business solution with a low total cost of ownership.

Only JD Edwards EnterpriseOne offers you a choice of databases, operating systems, and hardware so you can build and expand your IT solution to meet business requirements.
